

CODEOHALICS CLUB

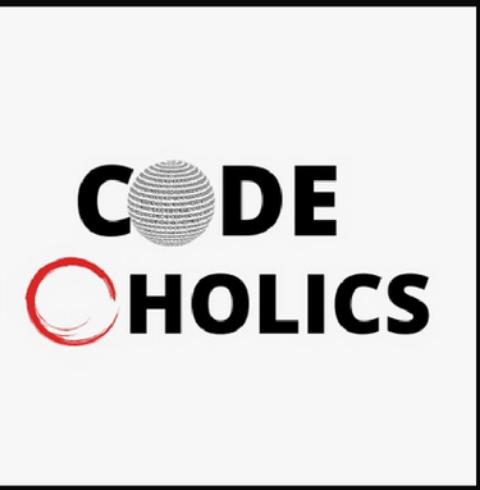

ESTABLISHED ON - DEC- 2021

What are we all about ?

CodeOHolics is a Coding club run and maintained by the Students of CMR Technical Campus. Our main goal is to inculcate coding skills for the student in our campus

Vision

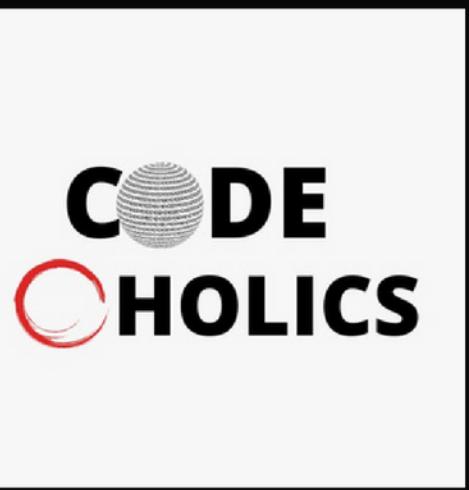

Our primary intention is to promote all - round development of students through interactive sessions, events, workshops and projects that help them perceive real-world problems. We strive hard to educate and guide our members by equipping them with technical and management skills, thereby enabling them to make significant contributions towards the community.

MISSION & WORK

- Bring a competitive programming culture to the campus
- Building Network
- Organizing regular events, contests, Hackathons, Interactive Workshops, Seminars, etc
- Make an impact where we help our peers in improving their coding skills by serving them the best content.

EVENTS

- CodeOHolics Induction
- 6 Companies 30 Days
- Kick Starter Event
- HackForEt Hackathon
- Hello Career

CODEOHOOLICS INDUCTION

To Introduce Core Team to the Whole Campus. Also presented our chapter mission, outcomes, and objectives and told them the importance of competitive programming.

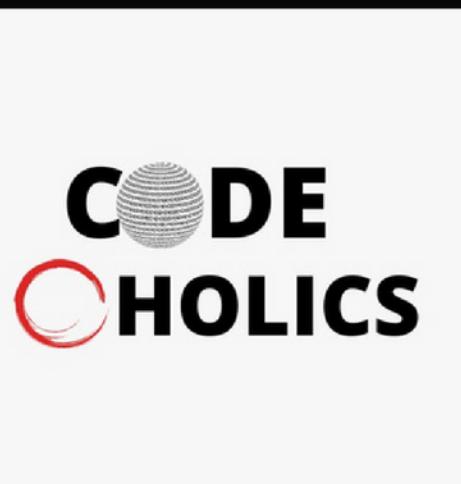

- No of attendees watched live: 175 views
- No of VIEWS till now: 1.4k+ views

6 COMPANIES 30 DAYS

It was a workshop, where we collaborated with ARSH GOYAL (Samsung | Ex-CodeChef | Ex- ISRO | Gold Medalist - NIT Jalandhar) through which we brought awareness of cracking product based company and asked participants to solve the frequently asked questions by top companies like FAANG.

The event was for 30 days where every 5 days questions will be changed according to the company to crack the technical round of that company.

The CodeChef CMRTC Chapter Presents

**6Companies
30days
Challenge**

Benefits :

- Top 90 - 100 questions by most big tech companies will be covered.
- The One who completes this challenge will be given referrals for Top big companies & Startups.
- Special 1 on 1 sessions for project completion.

HACKFORET(HACKATHON)

- We received 1,152 student registrations from various colleges.
- Our opportunity was viewed by 1,74,618 users.
- In total, we got 347 team registrations out of which 120 teams submitted their presentations.
- 110 teams got shortlisted for the implementation round.
- 64 teams completed their implementation round.
- Out of 64 teams, we shortlisted the top 25 teams for the final judging.
- A rank list of the top 10 was made from the top 25 teams based on feedback received from the external jury.

HELLO CAREER

The event was on topics “How to crack interviews (Technical)” and “What takes it to be a great Software Engineer”

We invited Arsh Goyal (NIT Jalandhar – Gold Medallist), who works for Samsung as Senior Software Engineer (He is one of top Influencers in LinkedIn & YouTube with 100k followers and 88k Subscribers).

We Invited Manasa Inampudi working as product manager at GOOGLE.

HELLO CAREER

Outcome from event:

1. Learn from the best people from the industry.
2. Students should get motivated towards a good career.
3. Learn How to crack interviews (Technical).
4. Learn about other activities they need to do for a good career.
5. For 1st years the event helps to form a foundation in tech and communication.
6. For 3rd years the event helps to form a basic-advanced level of understanding of how interviews are and what to do to crack them and how to prepare.
7. For 4th years the event helps to form an idea on how to be a great software engineer after getting an offer or being placed in addition to learning how to crack interviews as well.
